

The national strategy «VISION ZERO» towards a culture of prevention in occupational health and safety in Luxembourg

Dr.-Ing. Annick SUNNEN

Head of Prevention Department

Accident Insurance Association of Luxembourg (AAA)

Public institution in charge of the prevention and compensation of work-related accidents and occupational diseases

EU-Safety 2019 @Neumünster Abbey, Luxembourg

Break out session 5: Methodologies for Safe Community programmes

03.10.2019

National strategy **VISION ZERO**

- National strategy VISION ZERO is based on the 7 golden rules of ISSA
- **Launch of the VISION ZERO strategy in Luxembourg**
 - 24.03.2016 at the Occupational Health and Safety Forum
- Signatories of the **National Charta VISION ZERO**
 - Ministries of Social Security, Labour and Employment, Health, Transport, Home Affairs, Civil Service
 - Main national trade unions
 - National employers' organizations
 - Accident Insurance Association

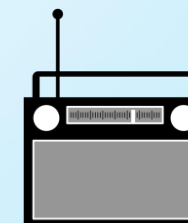

National strategy VISION ZERO

Health and safety at work. **All concerned!**

- National goals 2016-2022
 - Raising awareness of everybody's responsibility
 - Decrease the frequency rate of work-related accidents by 20%:
 - 5,37% (2014) → 4,30% (2022)
 - Medium and long term vision: zero killed and zero seriously injured worker
- About **175** companies are committed to VISION ZERO
 - These companies have to submit a three-year action plan on occupational health and safety based on the VISION ZERO principles
 - Recommendations for the implementation of an action plan as well as many prevention tools are available on the website VISION ZERO
 - “7 golden rules of VISION ZERO” training is provided by AAA

Bonus-malus system

- In Luxembourg: accident insurance contributions (mandatory) are fully covered by the employer
 - single contribution rate in 2019: 0,80 % of the contribution wage
- First-time application of the bonus-malus system: **exercice 2019**
- 17 risk classes (classification depends on the main business activity)
- 1 year observation period of the costs of work-related accidents
- Bonus-malus factor:
 - Single contribution rate will be multiplied by the bonus-malus factor
 - Possible values for the bonus-malus factor: 0,9 / 1,0 / 1,1 / 1,3 / 1,5
